Profile

I obtained my Bachelor's degree in Computer Science, specialized in Software Engineering and Information Systems. Currently, I am pursuing a professional Master's degree in Intelligent Web Applications. Rigorous and capable of synthesizing information easily, I am also motivated and proactive, always ready to fully engage in projects.

Education

Higher Institute of Computer Science of Kef Professional Master's in Intelligent Web Applications	Sep 15, 2024 - Oct 31, 2026
Higher Institute of Computer Science of Kef Bachelor's in Software Engineering and Information Systems	Sep 15, 2021 - Jun 30, 2024
Aboulkacem Chebbi High School Morneg Baccalaureate in Computer Science	Sep 15, 2020 - Jun 30, 2021

Experience

CyberCloud Solutions , PFE Master Internship	<i>Remote</i>	Monplaisir, Tunis Mars 2026 - Août 2026
I completed my PFE Master internship at CyberCloud Solutions, where I developed JobTest , an AI-powered recruitment platform for intelligent CV-Job Description matching. I worked on the design and development of the AI matching engine, combining NLP-based techniques such as TF-IDF, semantic embeddings, and skill matching to evaluate and rank candidates. I also contributed to the development of the FastAPI backend, Streamlit interface, database integration, explainability, evaluation pipeline, and automated PDF reporting.		
DXC Technology , PFE Internship		Pole El Ghazela Feb 1, 2024 - Apr 30, 2024
As part of my final year project at DXC Technology Tunisia, I had the opportunity to design and develop a web and mobile platform dedicated to managing DXC users. This project allowed me to apply the skills acquired during my previous internship, using Angular and Express.js for web development, as well as Ionic and Express.js for the mobile part. I also integrated features such as an interactive chatbot for a better user experience and Gmail SMTP for sending emails to users.		
Smart Technology , PFA Internship		El Manar Aug 01, 2023 - Aug 31, 2023
I completed a summer internship at Smart Technology as a Fullstack Web Developer. During this internship, I had the opportunity to work on real projects, contributing to the development of web applications. I was involved in all stages of the development process, from design to production. I was able to apply my front-end and back-end development skills using the Symfony framework.		

Skills

- **Frontend** : React, Angular, HTML, CSS, JavaScript, Ionic, Flutter, Symfony (Twig)
- **IA**: NLP, TensorFlow, PyTorch, Keras, CNN, RNN, LSTM, TF-IDF, Semantic Similarity, Model Evaluation
- **Backend** : PHP, Laravel, Symfony, ExpressJS, NodeJS, SpringBoot, FastAPI, SQLAlchemy, SQLite, REST APIs
- **DevOps** : Docker, Kubernetes, Jenkins, SonarQube, Nexus, Git, Hébergement
- **Bases de Données** : PL/SQL, SQL, Firebase, Postgresql
- **Outils** : VS Code, IntelliJ, Eclipse, Photoshop, Canva
- **Langages** : C / C++, Java, R, Python

Academic and Personal Projects

NeuralHire — AI Recruitment Candidate Matching Platform

[GitHub](#) 

- Developed an AI-powered platform for CV-Job Description matching, candidate screening, and ranking.
- Implemented a hybrid NLP engine combining TF-IDF, Sentence-Transformers, and skill matching.
- Built the FastAPI backend, Streamlit dashboard, evaluation pipeline, explainability, and PDF reporting.
- Technologies: Python, FastAPI, Streamlit, Scikit-learn, Sentence-Transformers, spaCy, SQLAlchemy, Docker.

Platform for Autistic Children

- Educational and playful web application designed for autistic children.
- Enables the creation of recreational activities to enhance their social skills.
- Technologies: HTML, CSS, JavaScript, PHP.

Interactive Personal Web Page

- Development of a portfolio with dynamic project and skills management (complete CRUD).
- Framework used: Laravel.

Recruitment Management Application

[GitHub Link](#) 

- Design and development of a web application for managing the recruitment process.
- Automation of application, sorting, and follow-up steps.
- Technologies: Symfony (Full Stack).

DXC App

[Mobile Front Link](#) 

[Web Front Link](#) 

[Backend Link](#) 

- Development of a web and mobile platform for managing users based on their roles and departments.
- Integration of an interactive chatbot and healthcare voucher management.
- Automatic email notifications via Gmail SMTP.
- Containerization of the project with Docker.
- Technologies: Angular, Express.js, Ionic.

Intelligent Interactive Chatbot

- Design of a chatbot capable of reading and understanding scanned PDF files using an NLP model.

Sports Online Store

[GitHub Link](#) 

- Development of an e-commerce website with product and sales history management.
- Integration of an AI model for sales prediction.
- Loyalty system with points and discounts.
- Framework: Laravel.

Online Hosted Portfolio (Angular)

[Netlify Link](#) 

- Personal website featuring my projects, skills, and academic background.
- Hosted on Netlify.

Personality-AI

[GitHub Link](#) 

- Python project focused on AI-based personality-related modeling and experiments.

Jbal Ressas

[GitHub Link](#) 

- Web/mobile project inspired by the Jebel Ressas mountain in Tunisia.
- Focus on UI/UX design and nature-oriented exploration experience.
- Technologies: Web development stack.

Achievements and Awards

Certifications and Additional Training

- **CDOSS Deep Learning** — Official certificate of completion.
- **Web Application Track** — *GDDC MENA 2021 Program (30 days)*.
- **Certified HTML & CSS Training** — Unithink ISI Kef.
- **Flutter Certification** — GDG Bizerte & 9antra.tn.
- **Certificate of Recognition** — University of Jendouba.

LinkedIn Learning Certifications

- **Deploying an AI and Data Strategy for the Digital Transformation of Industries** — Elodie Grasset
- **Essential Symphony 7** — Laurent N'Daw
- **Time Management Fundamentals** — Ludovic Girodon
- **Azure AI: Artificial Intelligence and Machine Learning** — Sylvain Labasse
- **Become an Angular Developer**
- **Node.js and Express: Building APIs** — Emmanuel Henri
- **React.js Essential Training (2023)** — Sandy Ludosky
- **Vue.js Essential Training** — Maheva Dessart
- **ASP.NET: Advanced Level** — Christophe Gigax
- **Prepare for the Certified Scrum Master Certification** — Kelley O'Connell

Competitions and Distinctions

- **2nd place** at *ElHack.tn Hackathon*.

Interests

- **Problem Solving:** Passionate about solving complex problems and finding innovative solutions.
- **Gaming:** Enthusiastic gamer, interested in game mechanics and the evolution of the gaming industry.
- **Game Modding:** Experience in customizing and creating content to enrich gaming experiences.
- **Hackathons and Tech Events:** Active participation in hackathons and development competitions, promoting continuous learning and collaboration.
